

File a Statement of Opposition against IMX

Response ID:11 Data

1. Statement of Opposition to the Trans Mountain Expansion Project

1. Please check the box below to give Leadnow consent to print and mail my answers to the National Energy Board as a Statement of Opposition to the Trans Mountain Expansion Project.

I understand and give consent to Leadnow to print and mail this form as my official statement of opposition

2. Date of this statement of opposition

08/29/2019

3. I am

a person who anticipates that my lands may be adversely affected by the proposed detailed route of the pipeline and not an owner of lands described in the above option

4. Check all that applies

Registered owner

5. Describe the lands your statement of opposition pertains to - include your Property ID number if you know it. You can find your Property ID number at this website <https://www.bcassessment.ca/Property/AssessmentSearch?bcaclogin=1>

My house is 2 blocks from where the pipeline is going THROUGH our AQUIFER, UNDERNETH out elementary school, ice rink, library, thru our wetlands even tho there is an alternate route. With or without the governments help, this project WILL BE STOPPED. If you want to see the destruction that BITUMEN creates, check out the Kalamazoo River. 6 years in, 6 billion spent, 30 miles of the river....dead and still spreading. Imagive when this happens to the Fraser or Burrard Inlet or the Salish Sea. Once spilled, it can never be recovered. On top of that, there is NO overseas market. The market is to the US and Alberta already has a pipeline to the US through Alberta for Bitumen. Let them use that or triple that. Keep it OUT of BC.

6. Fill in your personal information.

First and Last Name : Deborah Bledsoe
Telephone : 6047050418
Property/Address : 5879 Birmingham Pl
City/Town : Chilliwack
Province : British Columbia
Postal Code : V2R 3G1
Email : deborahbledsoe18@gmail.com

REG MAIL / REG COURIER
2019 SEP 13 PM12:25

7. Fill in the following if applicable.

8. Did you file a statement of opposition previously in 2017?

I did not file a statement of opposition

9. What are your reasons for opposing the proposed route including circumstances that you believe have materially changed since 2017?

KM says they KNOW there will be a leak within the first 4 years. We dont need this crap in Canada or anywhere else. MY drinking water at risk, children in school at risk, Homes at risk, wetlands at risk.

10. Describe your reasons for opposing the proposed methods of construction, including the circumstances that you believe have materially changed since 2017.

They are using Chinese steel. Trans Canada used Chinese steel for the last leg of their pipeline in Texas. In less than a year, there were pinholes in the pipe for miles and they had to shut it down.

11. Describe your reasons for opposing the proposed timing of construction, including the circumstances that you believe have materially changed since 2017.

NO time is the right time for this climate disaster.
