**Attention: Ms. Ramona Sladic, Secretary of the Commission**

Dear Ms. Sladic,

**Re: Westcoast Energy Inc. (“Westcoast”)  
Amendments to the Westcoast Pipeline Tariff**

Enclosed for filing with the Canada Energy Regulator pursuant to section 227 of the *Canadian Energy Regulator Act* are amendment to Westcoast’s General Terms and Conditions – Service.

These amendments, which are to take effect June 1, 2022, are a result of Westcoast’s regular review of the tariff. Major changes include:

- The removal of references to Zone 3 and Zone 4 which are being replaced with T-North and T-South
- The addition of language regarding the requirement for pressure control and overpressure protection equipment at Receipt Points
- The removal of a default with respect to ownership of metering and measurement equipment at Receipt or Delivery Points

The amendments were distributed to Westcoast Toll and Tariff Task Force (“TTTF”) participants on May 6, 2022 and discussed at a TTTF meeting on May 19, 2022 and no concerns were raised.

Attached are clean and black-lined copies of the above noted amendments.

Sincerely,

Tracy Holden
