Ms Sheri Young
Secretary of the Board
National Energy Board
444 - 7 Avenue S.W.
Calgary, AB T2P 0X8

Dear Ms. Young:

Re: Kinder Morgan Cochin ULC Application Pursuant to Section 58 and Part IV of the National Energy Board Act for Approval of the Cochin Reversal Project Information Responses

Kinder Morgan Cochin ULC ("Kinder Cochin") respectfully requests a one-week extension to file the responses to the National Energy Board ("NEB" or "Board") Information Request No. 1.

Kinder Cochin submits this request because of the timing challenges it has encountered in preparing the requested information, such as the detailed maps showing a 2 km radius from each pump station and block valve site (as requested in NEB Information Request 1.2). Additionally, Kinder Cochin notes that the NEB Information Requests require input from a large number of individuals from various companies, including a number of members of the Kinder Cochin team and its consultants, Stantec and HMA Land Services. Kinder Cochin is endeavoring to prepare the responses, but the challenges of coordinating the preparation of the Information Responses make it highly unlikely that Kinder Cochin can meet the existing filing deadline.

Kinder Cochin apologizes for any inconvenience to the Board and other interested parties. Its procedural request is intended to minimize any material delay in the NEB's process for consideration of the subject Application.

In the circumstances, Kinder Cochin would appreciate receiving direction from that Board at its earliest convenience.
