

ENBRIDGE INFORMATION SESSION AND COMMUNITY DINNER

COME JOIN US AT OUR COOKOUT!

Enbridge is proposing to replace a section of our existing Line 9 pipeline as part of our ongoing integrity management and maintenance. This project includes replacing approximately 700 metres of pipeline between Luton Gate and Pineway Boulevard in North York, Toronto. The replaced section of Line 9 will be permanently removed from service and left in place in a safe manner.

We would like anyone in the vicinity of the proposed Project who is interested and has questions about Enbridge's activities to feel welcome to ask us questions.
