

Appendix 1 Workshop schedule

Only Participants that registered to make oral submissions on specific workshop papers will be permitted to provide oral submissions at the workshops.

Participants are reminded that oral submissions are to be restricted to ACE and SAM-COM topics and need not repeat detailed submissions previously filed in writing.

The Participants are listed in the order in which they will appear. If scheduled Participants finish early or late, the next listed Participant may be asked to make their oral submissions ahead of or beyond their scheduled time. Participants should plan to make themselves available the day prior to and after their scheduled appearance so they can be prepared to make submissions when called upon.

The workshops will run until approximately 4:00 pm (Mountain time) each day. Breaks will be taken for lunch and on an as-needed basis.
