

**Appendix 1 National Energy Board (Board) decisions and reasons on motions to compel full and adequate responses to the first round of intervenor information requests (IRs)**

**NOTE:** The Board made decisions on each individual IR or sub-question referred to in the motions to compel. Where sequential IR numbers or sub-questions had identical decisions, these were consolidated into one row indicating the range of IRs or sub-questions that the decision applied to, for ease of reference only. This does not indicate that these requests were not considered individually. The reasons identified are identical for each IR or sub-question within that range.
