### Whitemud Extension (RK 43.1 to RK 45.9)

The previously proposed pipeline corridor between RK 43.1 and RK 45.9 was relocated to follow 215<sup>th</sup> Street in Edmonton, Alberta to the north where the proposed revised pipeline corridor joins the existing Trans Mountain Pipeline (TMPL) right-of-way. The pipeline corridor was revised in this area to avoid a conflict with an interchange and highway expansion that the City of Edmonton has planned for future development along the previously proposed pipeline corridor. Refer to Figure 2.2-2 and Table 2.2-1 for additional information regarding the previously proposed and proposed revised pipeline corridors. An engagement summary regarding the Whitemud Extension pipeline corridor selection process is provided in Table 2.2-2.
