Attention: Mr. Jean-Denis Charlebois, Secretary of the Commission

Dear Mr. Charlebois:

**Re: Trans Mountain Pipeline ULC ("Trans Mountain")
Trans Mountain Expansion Project ("Project")
Section 324 Application for Right of Entry ("Application")
OF-Fac-Oil-T260-2013-03 63
City of Burnaby ("Registered Owner")
Short Legal: 009-006-206 / Tract: PC7722 ("Lands of the Owner")**

Please find attached an Application pursuant to section 324 of the *Canadian Energy Regulator Act* ("**Act**") requesting an order for Right of Entry for the above-referenced Lands of the Owner necessary for the construction and operation of the Project.

Please note that on February 26, 2021, Trans Mountain filed an application with the Canada Energy Regulator ("**Regulator**") pursuant to section 211 of the Act for approval of a deviation to the approved Plan, Profile, and Book of Reference relevant to the Lands of the Owner ([C11686](#)). The Commission of the Regulator ("**Commission**") approved the application on April 16, 2021 by Order AO-002-OPL-004-2020 ([C12435](#)) ("**Deviation Approval**"). The revised Plan, Profile, and Book of Reference identified in the Deviation Approval is consistent with the rights for the Project over the Lands of the Owner sought in the enclosed Application.

In addition, please note that the Schedule attached as Exhibit "C" to the Application differs from that attached to the right of entry notice served on the Registered Owner.¹ Having regard to ongoing consultation efforts with the Registered Owner, Trans Mountain understands that the amended Schedule addresses the Registered Owner's outstanding concerns regarding Trans Mountain's proposed entry on the Lands.

Subsection 55(2) of the *National Energy Board Rules of Practice and Procedure*, 1995, SOR/95-208 ("**Rules**"), requires that the Application be served on the Registered Owner and on other persons, insofar as they can be ascertained, interested in the Lands of the Owner (said Registered Owner and

¹ The Schedule that is proposed to be made part of the order sought is not required to be included with the notice to be served under section 324(2) of the Act, but only as part of the Application in accordance with section 55(3)(c) of the *National Energy Board Rules of Practice and Procedure*, 1995, SOR/95-208.

other persons hereafter referred to collectively as the "**Owner**") on the same day that the Application is filed with the Regulator. Trans Mountain does not believe that it is reasonably possible or practical to effect same day service and, therefore, seeks relief from this requirement in accordance with the broad discretion conferred upon the Commission under section 4 of the Rules. In that regard, under subsection 56(1) of the Rules, the ten (10) day timeline within which the Registered Owner must file any objection to the Application runs from the date that the Application is served. There will, therefore, be no prejudice to the Registered Owner arising from the relief sought. Trans Mountain will attempt to serve the Registered Owner and will file proof of service of the Application as soon as possible after service is effected on the Registered Owner.

Right of Entry Application Pursuant to Subsection 324(1) of the Act

1. Trans Mountain hereby applies to the Canada Energy Regulator ("**Regulator**" or "**CER**") pursuant to subsection 324(1) of the Act and section 55 of the Rules for an order ("**Right of Entry Order**") granting Trans Mountain an immediate right to enter those portions of the Lands of the Owner shown as Pipeline ROW Area and Temporary Workspace Area in the Schedule attached as Exhibit "C" to this Application and proposed to be made part of the Right of Entry Order.
2. On June 21, 2019, the National Energy Board issued Certificate OC-065 authorizing Trans Mountain to construct and operate the Project.
3. On August 22, 2019, Trans Mountain served notice on the Owner pursuant to section 34 of the *National Energy Board Act* ("**Section 34 Notice**") in relation to the detailed route of the Project.
4. Trans Mountain and the Owner entered into an agreement regarding the Project's detailed route in October 2019 ([C02346](#)) (the "**Agreement**"). On June 4, 2020, the Commission issued Order OPL-004-2020, approving the Plan, Profile, and Book of Reference relevant to the Lands of the Owner. On November 24, 2020, the Commission issued Order AO-001-OPL-004-2020 approving route deviations pertaining to, among other lands, the Lands of the Owner. Trans Mountain sought approval for such route deviations to accommodate the Registered Owner's requests as part of the Agreement.
5. On February 26, 2021, Trans Mountain filed an application pursuant to section 211 of the Act for approval of a further deviation to the route as it pertains to the Lands of the Owner (the "**Deviation Application**") to accommodate further requests from the Registered Owner in connection with the Agreement ([C11686](#)). As set out in the Deviation Application, Trans Mountain notified the Registered Owner regarding the proposed deviation on February 16, 2021 and the Registered Owner was provided a copy of the filed Deviation Application. On April 16, 2021, the Commission issued Order AO-002-OPL-004-2020, approving the Deviation Application ([C12435](#)).
6. On February 27, 2021, Trans Mountain served notice on the Registered Owner pursuant to subsection 322(1) of the Act ("**Section 322 Notice**") in relation to the lands required for the Project.
7. On May 10, 2021 and May 11, 2021, Trans Mountain served notice on the Owner pursuant to subsection 324(2) of the Act ("**Notice**") in relation to right of entry.
8. Trans Mountain requires the rights, titles and interests in the Lands of the Owner for the purposes and pursuant to the rights, obligations, restrictions and terms and conditions described in the Schedule attached as Exhibit "C" to this Application. The form of Exhibit "C" is proposed to be made a part of the Right of Entry Order sought by this Application. Trans Mountain notes that the terms of Exhibit "C" differ from the terms of the Schedule which was attached to the Notice. Having regard to ongoing consultation efforts with the Owner, Trans Mountain understands that the amended Schedule addresses the Owner's outstanding concerns regarding Trans Mountain's proposed entry on the Lands. A blackline comparison of the Notice Schedule and the Exhibit "C" Schedule is attached hereto as Exhibit "I".

9. As summarized in Exhibit "F" to this Application, Trans Mountain has attempted in good faith to negotiate an agreement with the Owner for the necessary rights to enter the Lands of the Owner and has been unsuccessful to date. The issues that Trans Mountain believes remain outstanding which form the basis for the inability to reach a voluntary agreement with the Owner are also described in Exhibit "F".
10. Trans Mountain requires immediate right of entry to the Lands of the Owner in order to commence construction of the Project. Construction is anticipated to commence on the Lands of the Owner on or about September 6, 2021 or as soon as practicable after receiving the necessary authorization from the Commission and Environment and Climate Change Canada.
11. In support of this Application, and in accordance with the requirements of the Act and the Rules, the following Exhibits are attached to and form part of this Application:

- Exhibit "A"** Copy of the Notice served pursuant to subsection 324(2) of the Act;

- Exhibit "D"** Copy of the current Certificate of Title for the Lands of the Owner described in Exhibit "C";
- Exhibit "E"** Copy of section 56 of the Rules;
- Exhibit "F"** Summary of the land negotiation process, outstanding issues and reasons a voluntary agreement could not be reached;
- Exhibit "G"** CER Template for Objection to Application for Right of Entry;
- Exhibit "H"** Completed CER Filing Inventory; and
- Exhibit "I"** Blackline Comparison of Notice Schedule and amended Schedule attached as Exhibit "C".

Relief Sought

Trans Mountain Expansion Project ("Project")
OF-Fac-Oil-T260-2013-03 63
Notice of application for right of entry
Short Legal: 009-006-206 / Tract: PC 7722 ("Lands")**

As you know, Trans Mountain has been in consultation with you with respect to the portion of the Project route that will cross your Lands.

In particular, Trans Mountain has:

- provided you with an offer to acquire lands for the Project; and
- served you with a notice in relation to the lands proposed to be acquired for the Project pursuant to subsection 322(1) of the *Canadian Energy Regulator Act* ("**CER Act**").

It is Trans Mountain's preference to complete a negotiated agreement for the land rights necessary to construct, operate and maintain the Project. However, through its engagement program, Trans Mountain understands that you have not accepted the current offer of compensation.

To ensure that Trans Mountain has access to land for construction and meets its customer commitments, it is necessary for Trans Mountain to initiate the right of entry process by serving you with a Notice of Application for immediate right of entry ("**Notice**") pursuant to subsection 324(2) of the CER Act. Please find the Notice attached to this letter as Attachment B.

The Commission of the Canada Energy Regulator ("**Commission**") may, if you and Trans Mountain do not come to an agreement, on application, determine compensation associated with the rights acquired through right of entry, if granted, in accordance with the limited factors prescribed by the CER Act.

If this matter proceeds to right of entry, the determination of compensation payable will be based on the right to use any areas required. The bonus payment currently offered would not be part of Trans Mountain's compensation position before the Commission and any damages caused by construction activities will be compensated separately.

Trans Mountain intends to file the right of entry application and access the Lands for Project construction in accordance with the timelines set out in the enclosed Notice.

Attached hereto as Attachment A to this letter is the Canada Energy Regulator Information Letter dated December 16, 2020 regarding the right of entry application process ("**Information Letter**").

In the meantime, should you have any further questions, please do not hesitate to contact the undersigned at TMEP_Land@transmountain.com or your designated Project Land Representative.

Yours truly,

Alain Parisé

Right of Entry**

Canada Energy Regulator Information Letter

Purpose

You are receiving this letter from the Canada Energy Regulator because Trans Mountain has served you with a **notice** of Trans Mountain's intention to file an application for a right of entry order in the future. This notice includes information from Trans Mountain regarding the date on which the company intends to make its *application* for right of entry. If and when Trans Mountain files a right of entry application, you will be served with the application and you will have certain rights to participate in the application process.

The Canada Energy Regulator is providing you this letter in order to provide you information to familiarize yourself with the right of entry process.

Background Materials

On 19 May 2016, the National Energy Board (NEB or Board) issued its OH-001-2014 Report recommending that the Governor in Council (GIC) approve the TMEP, subject to 157 conditions ([A77045](#)).

On 29 November 2016, the GIC directed the Board to issue Certificate of Public Convenience and Necessity OC-064 ([A80871](#)), the effect of which was to approve the TMEP, including the 150 metre wide corridor.

On 18 June 2019 the GIC issued the Order in Council approving the Board's MH-052-2018 Reconsideration Report ([A98021](#)).

On 28 August 2019, pursuant to the Canadian Energy Regulator Act, the National Energy Board (NEB) was replaced with the Canada Energy Regulator (CER). The NEB's adjudicative work has been transferred to the Commission of the Canada Energy Regulator.

The CER has directed Trans Mountain to provide this information letter with all notices of application for right of entry.

For any questions, please contact a CER Process Advisor by phone at 1-800-899-1265 (toll-free), or by email at TMX.ProcessHelp@cer-rec.gc.ca.

Right of Entry

If a company requires the use of private lands for its CER-regulated project, it must first acquire the necessary land rights through a land acquisition agreement. If the company and a landowner are unable to finalize a land acquisition agreement, the company can file with the CER a right of entry application for an order to enable the company to enter the lands. The Commission expects that the company and the landowner have made every reasonable attempt to finalize a land acquisition agreement.

The process to be followed for right of entry applications is summarized in the diagram attached to this letter.

Objection to an Application for Right of Entry

If you are served with an application for a right of entry order *after you receive this notice*, you have a right to file a written objection to the application. Objections must be filed with the CER and served on Trans Mountain, within **10 calendar days of the landowner's receipt of the application**.

The CER has created a template for landowners to complete in the event that they wish to file an objection to a right of entry application. The written objection template can be found on the CER's website at: <https://www.cer-rec.gc.ca/en/consultation-engagement/form/objection-right-entry-covid.pdf>

Further information regarding an objection to a right of entry application:

Timing

Section 56 of the *National Energy Board Rules of Practice and Procedure, 1995*, governs the process for objections and replies to objections. Please note the objection period begins after an *application* is filed; no filings are required where Trans Mountain has provided *notice* of a future application. See the Additional Resources at the end of this letter for more information.

After the application is filed, a landowner may file an objection, and the company may file a reply. Steps 3 and 4 of the attached diagram outline the objection and reply process.

Additional objection or reply submissions filed by either party after this process shall be disregarded and will not form part of the record, unless prior leave was granted by the Commission. Requests for leave to file additional materials may be made in writing to the Commission, copying Trans Mountain. The request must include an explanation or reasons justifying the requested relief. Such relief will only be granted in exceptional circumstances.

Content

The Commission reminds landowners that the right of entry process is not intended to consider impacts of the TMEP that have been, or could have been, reviewed in previous regulatory processes (see Background Materials above).

The Commission encourages landowners to provide comments regarding whether the right of entry application is appropriate as applied for, and comments regarding the particular terms and conditions of the right of entry.

The Commission reminds landowners that certain information may be privileged and confidential, such as the content and form of settlement negotiations between you and Trans Mountain. This information should not be included in the objection, unless both parties agree to waive any privilege.

Finally, the Commission advises landowners that landowners are entitled to compensation for the acquisition of lands, however, **disputes regarding compensation are not considered in the Commission's assessment of a right of entry application.** Further information regarding compensation disputes is provided below.

Compensation Related Matters

Under Part 6 of the CER Act, parties may apply to the Commission to determine compensation disputes in relation to land matters. The CER's [*Guidance on Land Related Compensation Disputes*](#), provides further information about when compensation may be available.

If parties are unable to resolve a compensation dispute through their own negotiation efforts, the CER can support the resolution of the dispute in two ways: ADR or adjudication (hearing and decision). Interested parties may submit a complaint or application to the CER to commence either or both of these compensation dispute proceedings.

In line with the principles of natural justice, compensation dispute proceedings will be dealt with independently from the right of entry process. Right of entry processes will proceed along their normal course regardless of whether parties are also participating in a compensation dispute proceeding.

Process Advisors and Alternative Dispute Resolution Services

The CER has Process Advisors in place to respond to your questions about the right of entry process. You can reach them by email at TMX.ProcessHelp@cer-rec.gc.ca or you can call 1-800-899-1265 (toll free).

The Commission's alternative dispute resolution (ADR) services are available to assist parties to reach resolution of outstanding issues outside of the regulatory process. ADR processes are uniquely tailored to individual needs and could take the form, for example, of a meeting between landowners and Trans Mountain. To take advantage of ADR, both the landowner and Trans Mountain must agree to take part. This process is voluntary and facilitated by trained Board staff, or by another neutral third party. If interested in using the Commission's ADR services or learning more information about ADR options, please email ADR-MRD@cer-rec.gc.ca or call 1-800-899-1265 (toll free).

SUMMARY OF THE LAND NEGOTIATION PROCESS

Registered Owner:	City of Burnaby (" Registered Owner ")
Occupant:	Greater Vancouver Regional District and Greater Vancouver Sewerage and Drainage District (being other persons, insofar as they can be ascertained, interested in the Lands, referred to herein as the " Occupant ")
Tract Number and Legal Description:	Tract: PC7722, 009-006-206 (the " Lands ")
Section 322 Notice:	February 27, 2021
Section 34 Notice:	August 22, 2019 As set out on PDF page 4 of 16 in Trans Mountain's combined section 211 and section 208 Application for the Burnaby Lands (C11686-1), the Owner was notified regarding changes to the Plan, Profile, and Book of Reference relevant to the Lands of the Owner on February 16, 2021 and provided with a copy of the combined application on February 26, 2021.
Subsection 324(2) Notice:	Registered Owner served May 10, 2021 Occupant served May 11, 2021

Summary of Consultations

Trans Mountain and its agents began engaging with the Registered Owner regarding the portions of the Lands that would be required to construct and operate the Project when focused routing engagement began in or about April 2013.

As part of this ongoing engagement, Trans Mountain and the Registered Owner convened a Technical Working Group ("**TWG**") in 2016 comprised of Trans Mountain technical teams, the Registered Owner and its subject matter experts. Through the TWG and other engagement activities, Trans Mountain and the Registered Owner consulted directly about the Project, including related concerns and issues raised by the Registered Owner.

The Registered Owner stopped participating in regular TWG meetings in December 2017.¹ However, Trans Mountain and the Registered Owner undertake regular discussions on specific topics including land matters, permits and construction-based complaints. Such discussions are summarized in the TWG Reports filed with the Regulator pursuant to Condition 49 of Certificate OC-065.²

¹ As noted in the National Energy Board Decision for Detailed Route Hearing MH-033-2017 – Tunnel Section ([A90020-1](#)) dated February 15, 2018: "Burnaby chose not to take full advantage of numerous opportunities offered by Trans Mountain. Outside of the limited pre-TWG process (sometimes referred to as the TWG process), and filings through counsel, Burnaby stopped its limited consultation with Trans Mountain around the point it filed its detailed route objection." (p. 11)

² Trans Mountain has filed various reports describing the activities undertaken by the TWGs, including the Terms of Reference dated February 16, 2017 ([A81760-2](#)) and subsequent reports dated April 13, 2017 ([A82625-2](#)),

Trans Mountain has been diligent in its attempts to reach a voluntary agreement with the Registered Owner in respect of acquiring an interest in the Lands for the purposes of the Pipeline ROW Area and Temporary Workspace Area and has made multiple offers of compensation in respect of the same. While Trans Mountain understands that the terms and conditions set out in the Schedule attached as Exhibit "C" to this Application are acceptable to the Owner, the Owner has to date refused to grant Trans Mountain the right to enter those portions of the Lands required for the construction, operation and maintenance of the Project.

Trans Mountain submits that the only issue that remains outstanding in relation to its acquisition of the proposed Pipeline ROW Area and Temporary Workspace Area for the purposes of the Project is that of compensation.

Trans Mountain submits that the issue of compensation is properly dealt with according to the scheme provided for the resolution of such matters under the Act, whether by alternative dispute resolution or by determination of the Commission.

Trans Mountain has also been involved in ongoing engagement with the Occupant through a separate TWG comprised of Trans Mountain technical teams, the Occupant and its subject matter experts. Details regarding that engagement can be found in the TWG Reports filed with the Regulator pursuant to Condition 49 of Certificate OC-065.

October 13, 2017 ([A86895-2](#)), April 13, 2018 ([A91269-2](#)), October 12, 2018 ([A94775-1](#)), April 12, 2019 ([A98818-1](#)), October 15, 2019 ([A6Y7Q7](#)), April 14, 2020 ([C05717-1](#)) October 9, 2020 ([C08832](#)) and April 13, 2021 ([C12364](#)) ("**TWG Reports**"). The TWG Reports specify the dates of TWG activities and meetings and provide a summary of issues raised during TWG meetings, a description of Trans Mountain's response and/or the outcome, and a description of any unresolved issues or concerns and how they will be addressed.
